

- Background image of me to save on space or will that be too pretentious?

Website to include following pages.

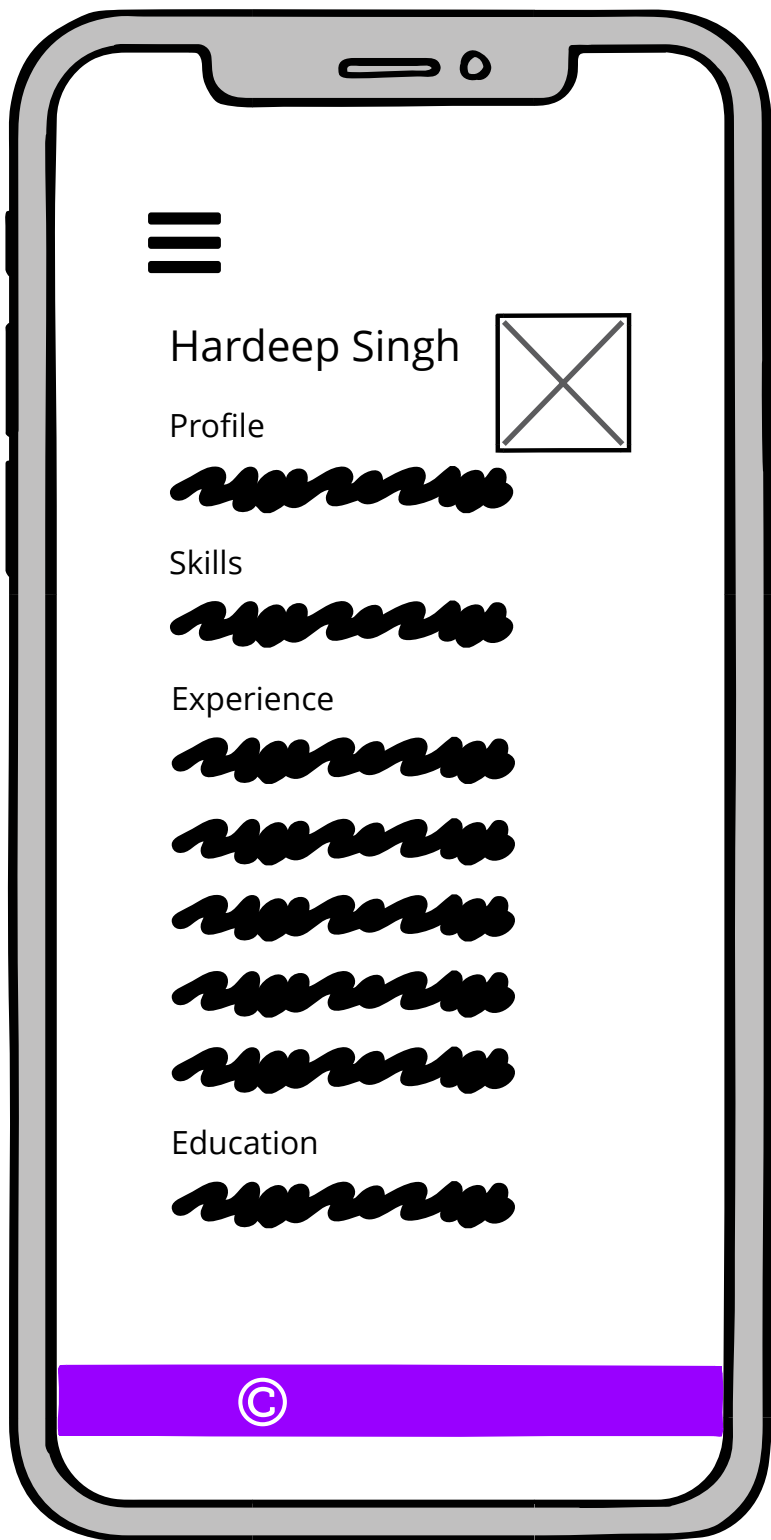

- About me
- My resume
- Portfolio
- blog
- Contact me
- Black background with white or light text
- Header and footer to be in gradient theme colours
- @media only screen and (max-width: 414px) {}
- Every page to have a uniform hamburger menu when viewing on a phone
- Every page to have a footer in the colour theme with a copyright mark in every type of viewing port

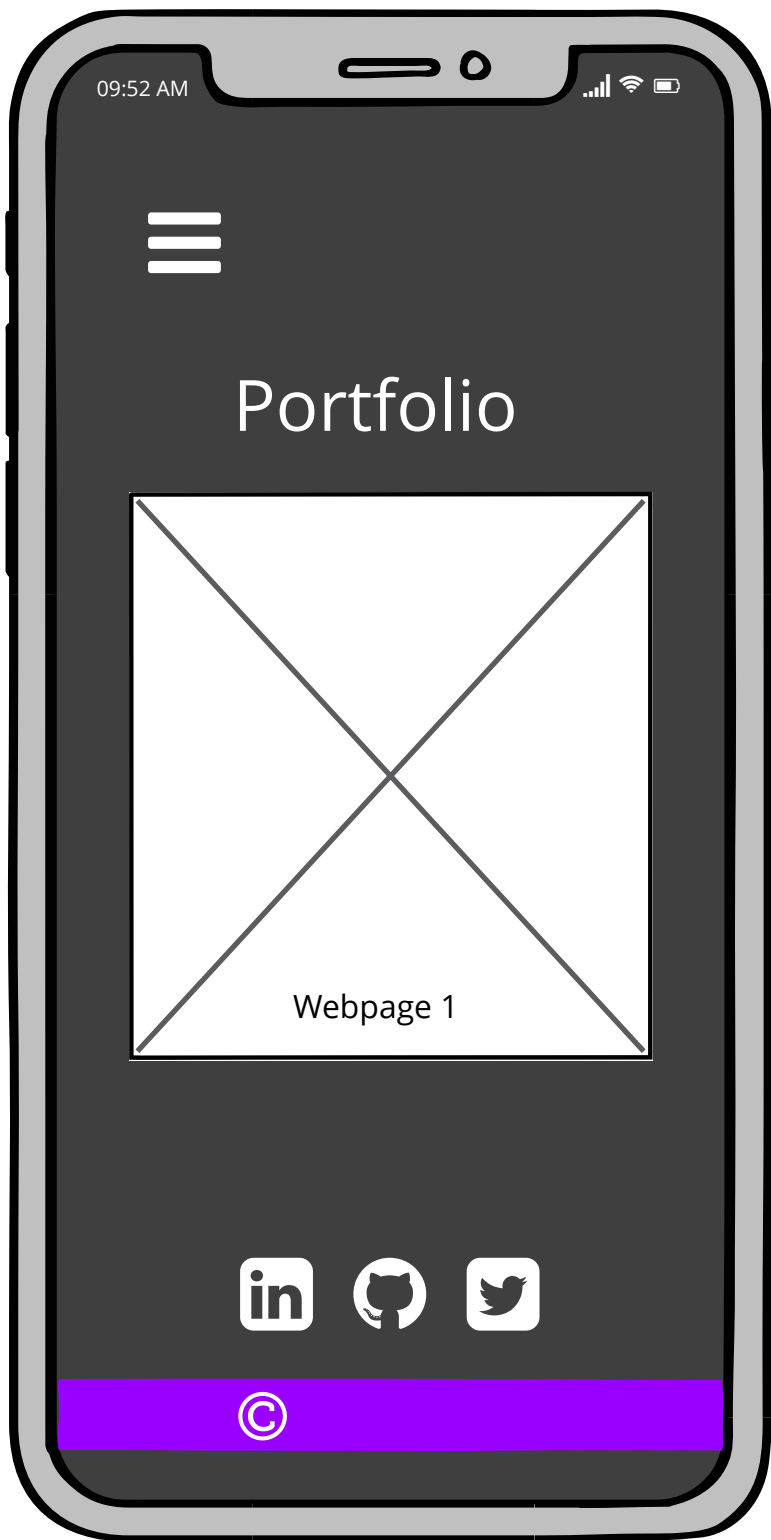

Drop down menu on side with links to

- About me
- My resume
- Portfolio
- Blog
- Contact me

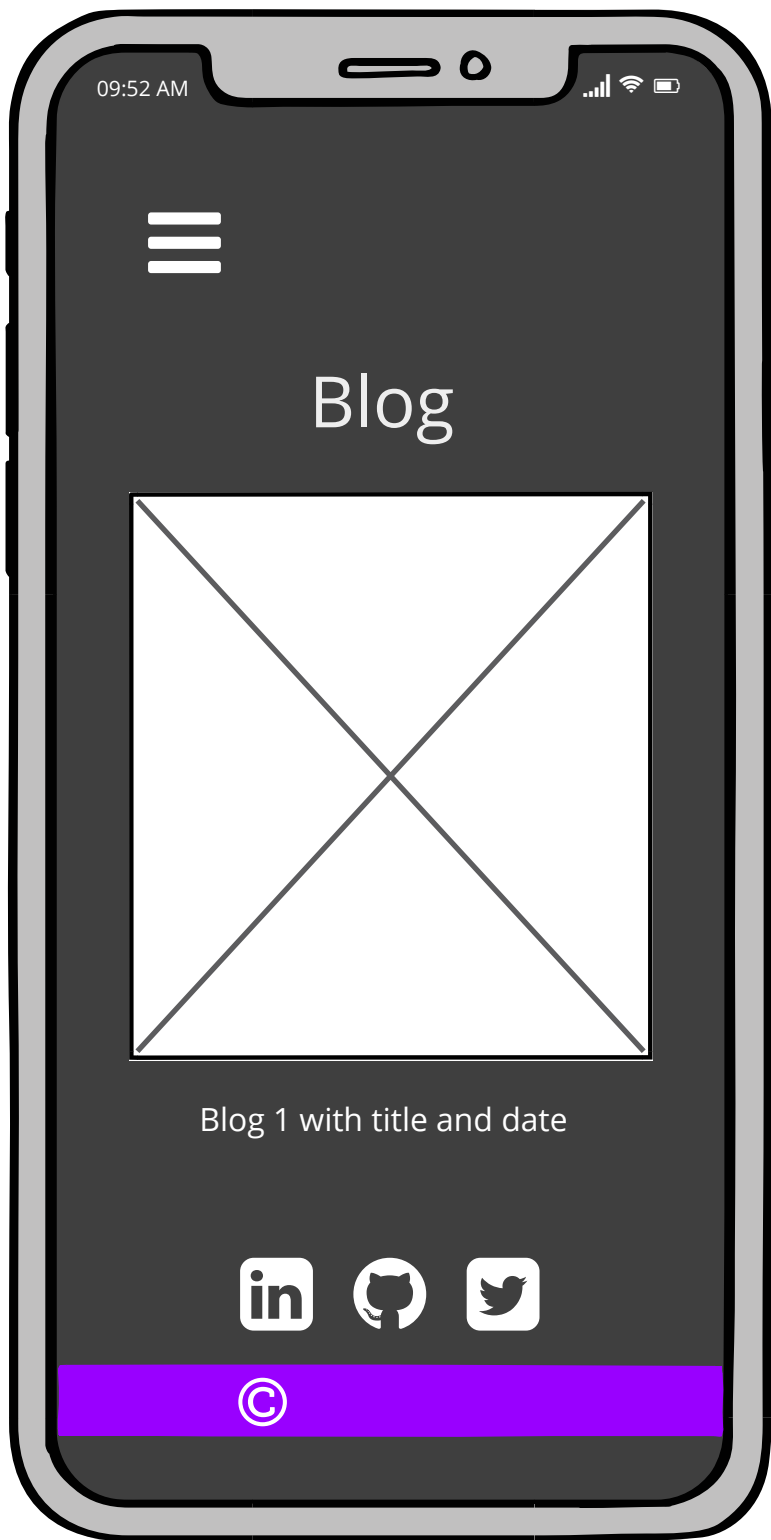

To be uniform accessible across every page. Use of a hamburger menu will ensure that the user can see a menu is available, without it taking up too much space.

- A page with my existing CV to be embedded
- CV needs to be updated every few months to update any new skills (assuming this is a good habit to fall into in the tech industry)

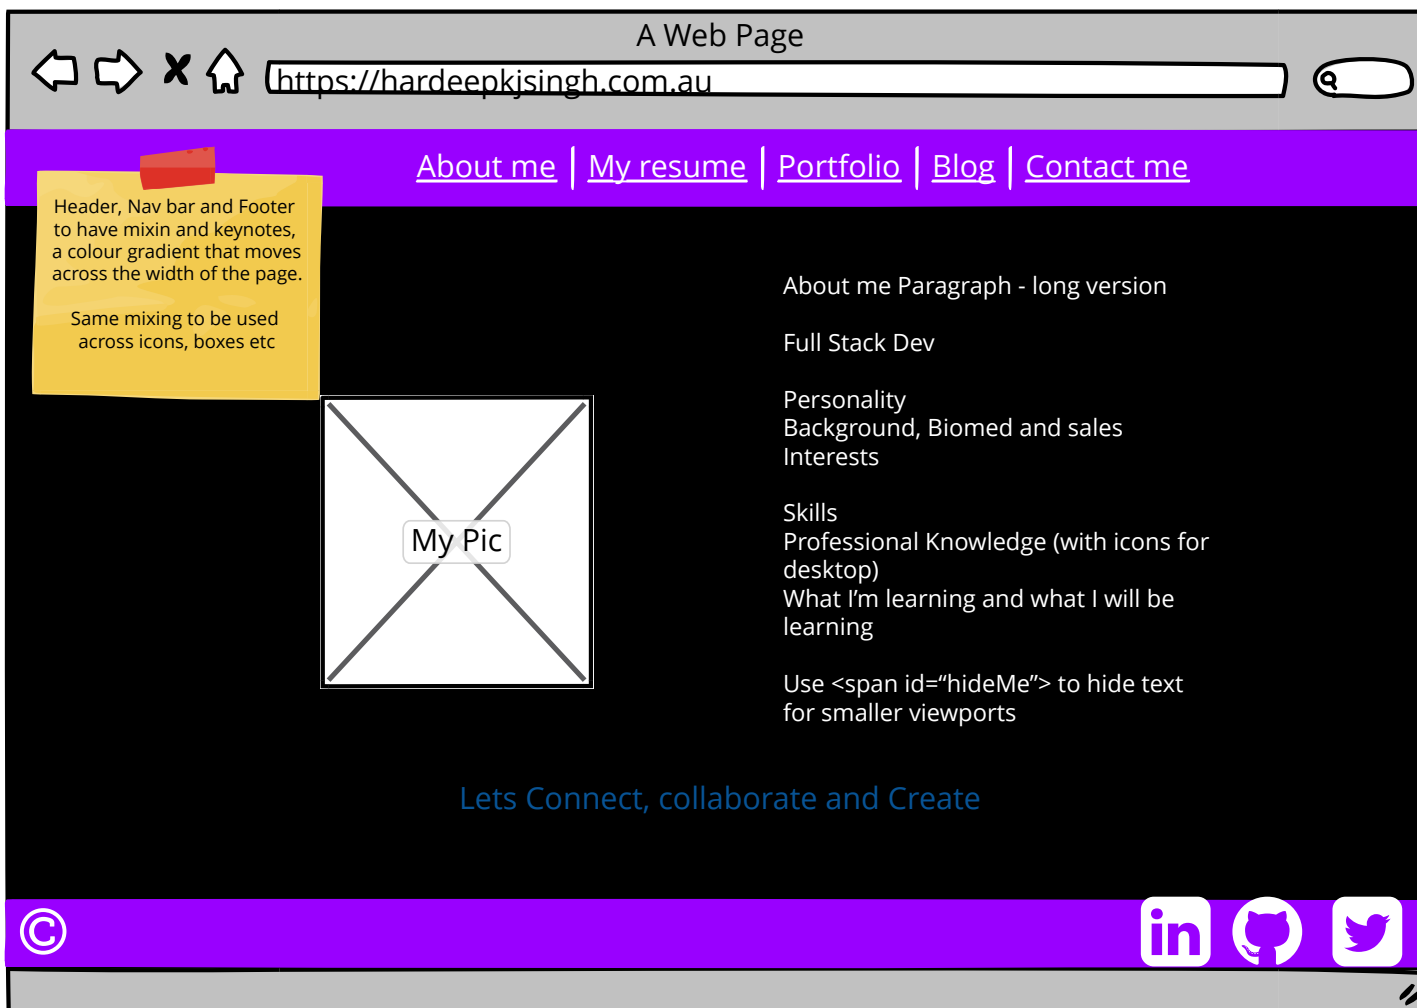

- `<div>` to hold images related to the link, in the shape of chevrons
- Ideally to have borders in the gradient colour theme colour to continue theme. Box and border to transform (scale up or shimmer) when mouse hovers on the element
- One chevron wide on page when viewing on phone
- There will be 6 links to 6 webpages
- Webpages to be updated as I progress in my skills and learning

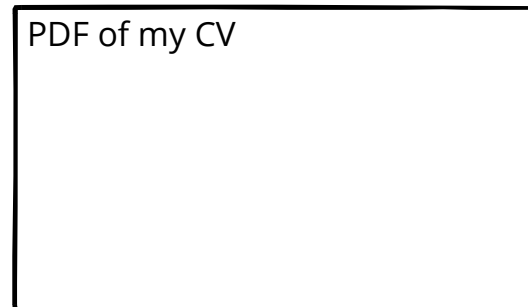

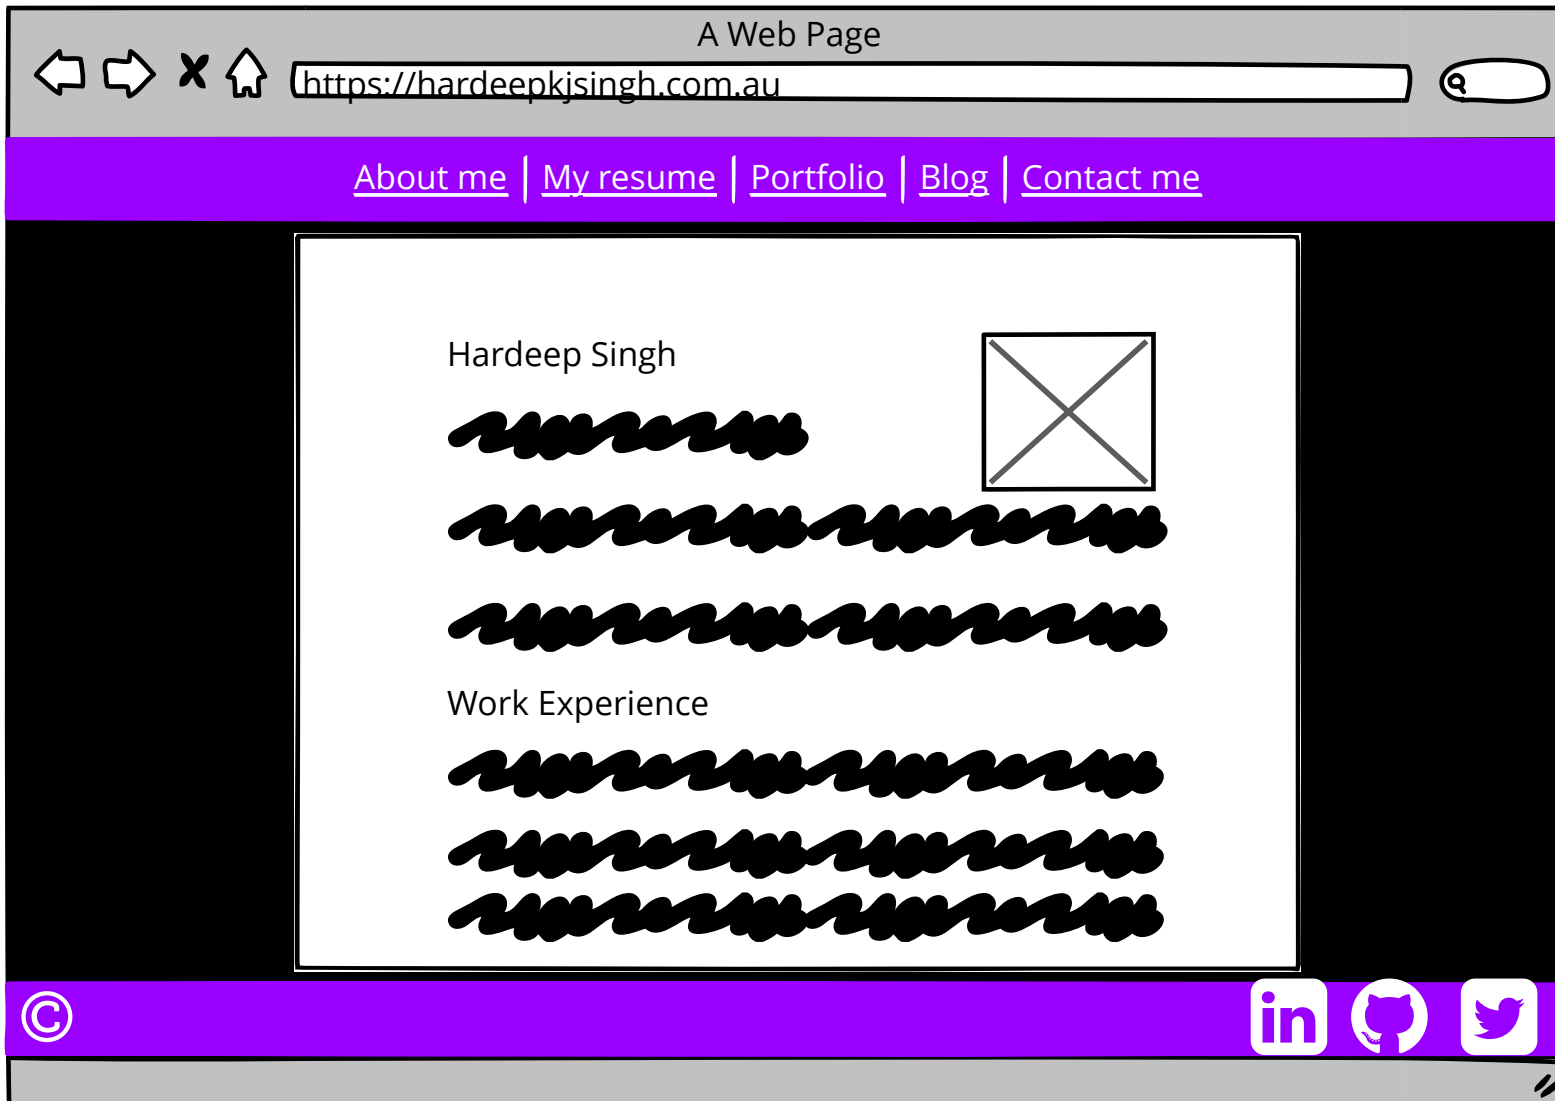

- Blog page to be set up similarly to Portfolio page
- X 6 Blog links with titles and publish dates
- again <divs> to hold images related to the link, in the shape of chevrons, perhaps facing the other direction
- To have borders in the gradient colour theme colour. Box and border to transform (scale up or shimmer) when mouse hovers on the element
- One chevron wide on page when viewing on phone
- There will be 6 links to 6 dummy blogs
- Blogs to be add in due course

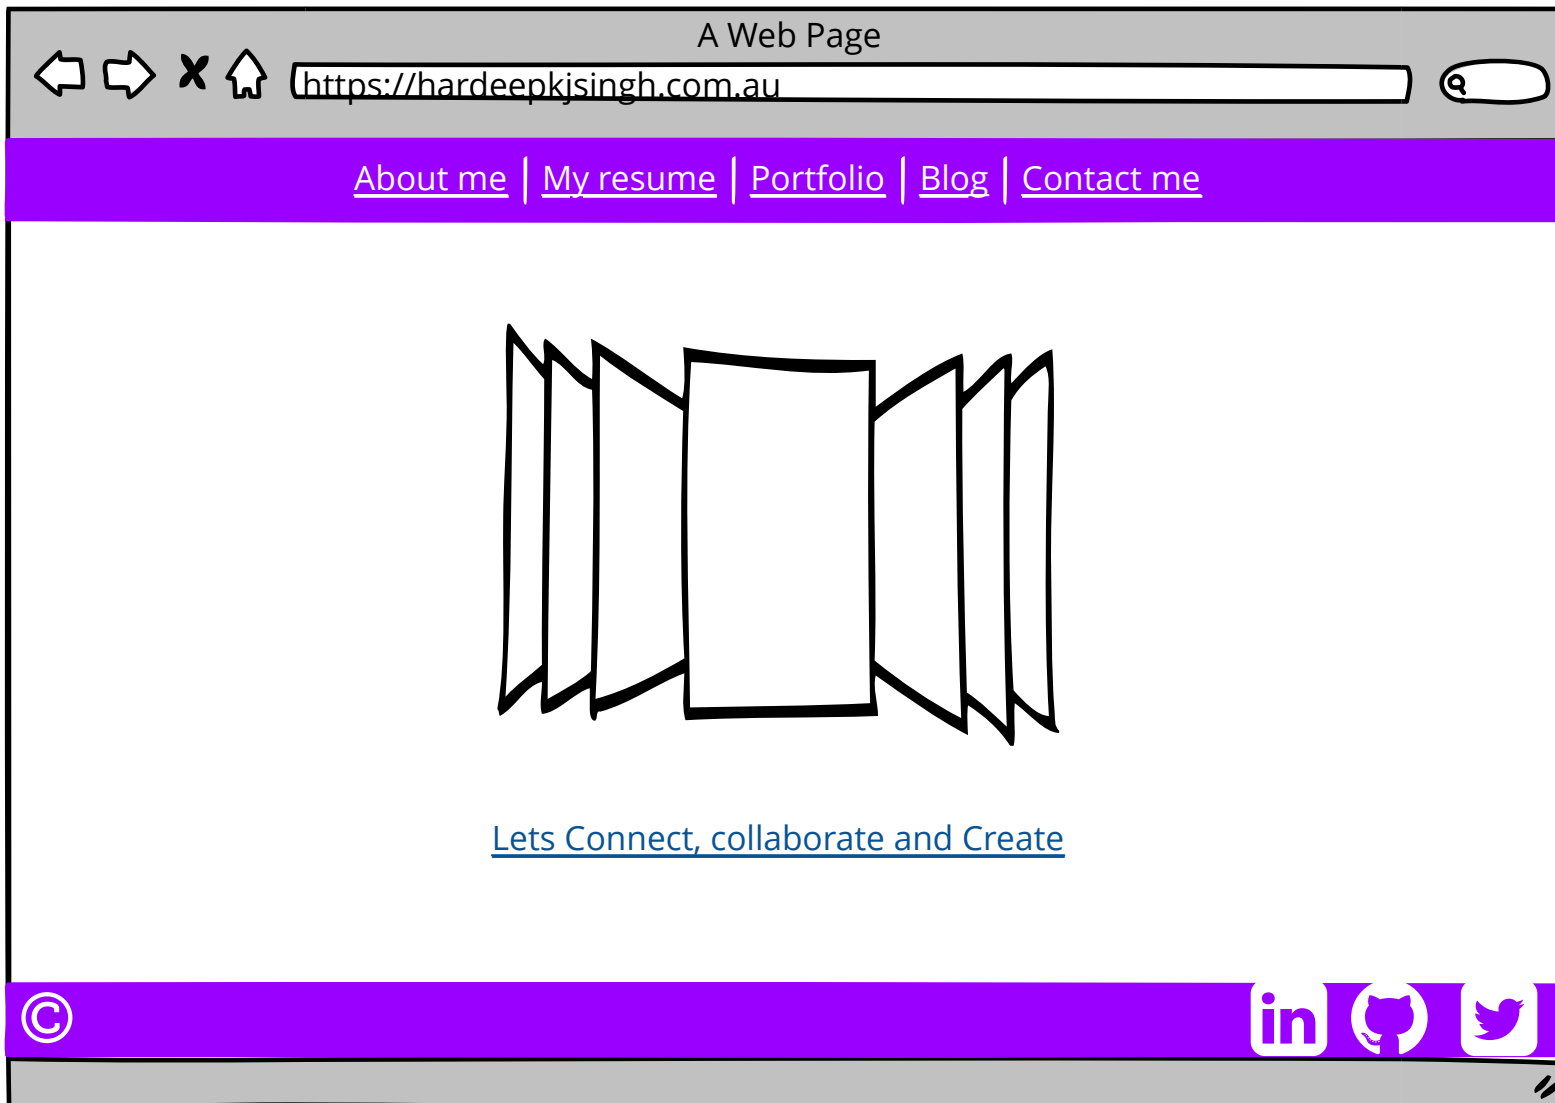

- As well as having my social media links, LinkedIn, Github and Twitter on every page, I will include a form for the users ease to contact me.
- Form to be reactive and animated
- No images on this page for ease of use

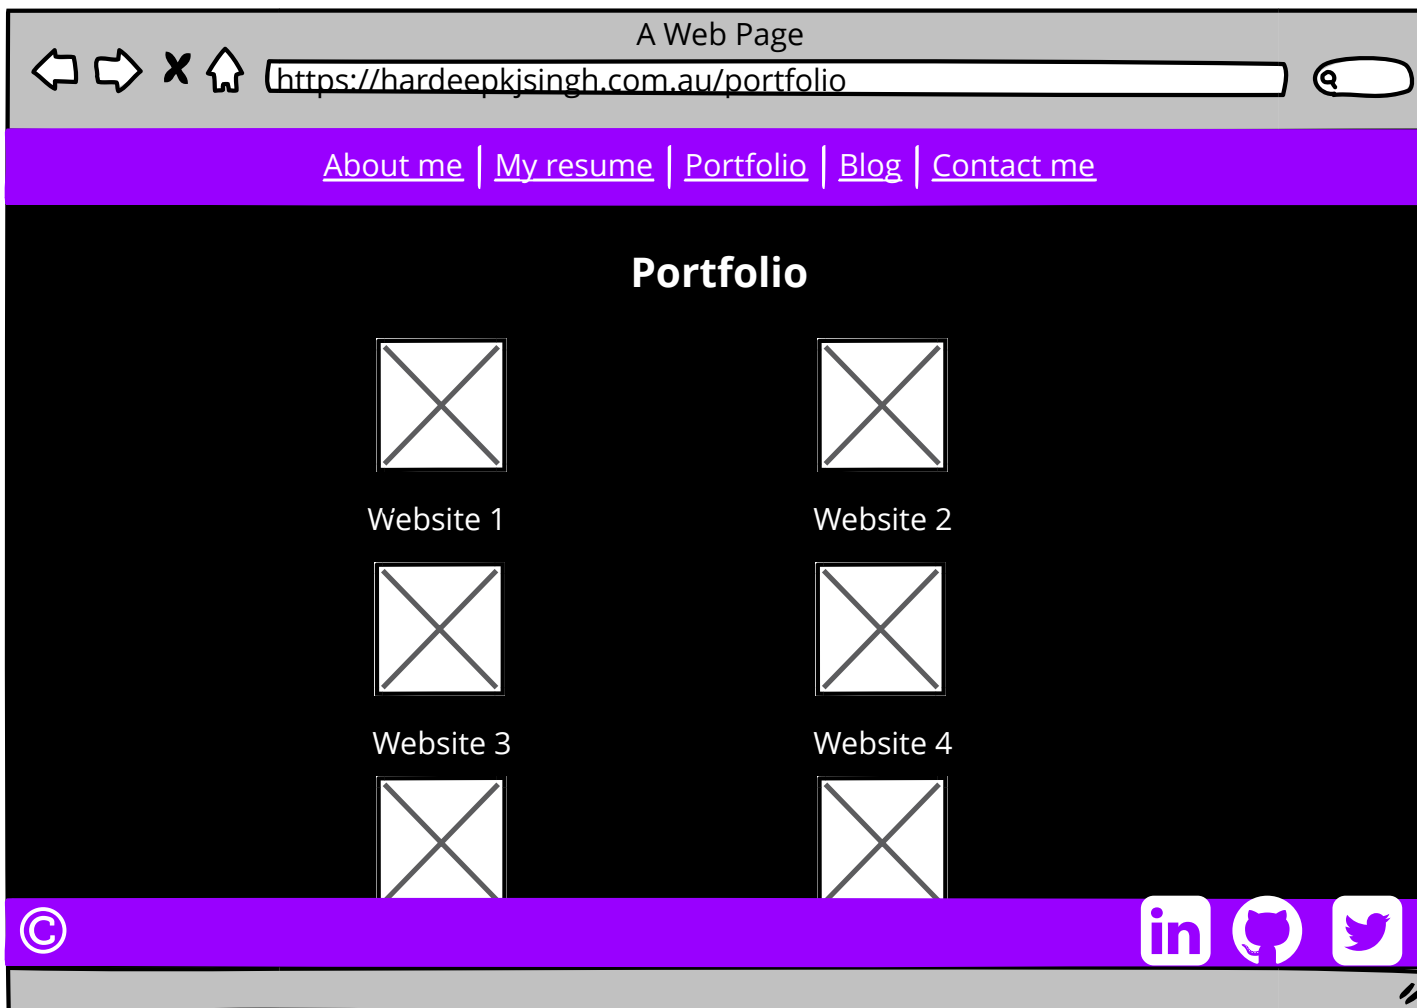

- The profile picture will be in the shape of a chevron
- Body Background black with white text
- All webpages will have a uniform nav bar, located in the same space for ease of use
- all webpages will have a footer at the bottom which holds the copyright mark
- all headers and footers will be in the colour theme gradient
- There will be links to my social media in the footer on every page, this includes, Linked Im, Github and Twitter
- The chevron image will be animated to translate onto the page like an arrow

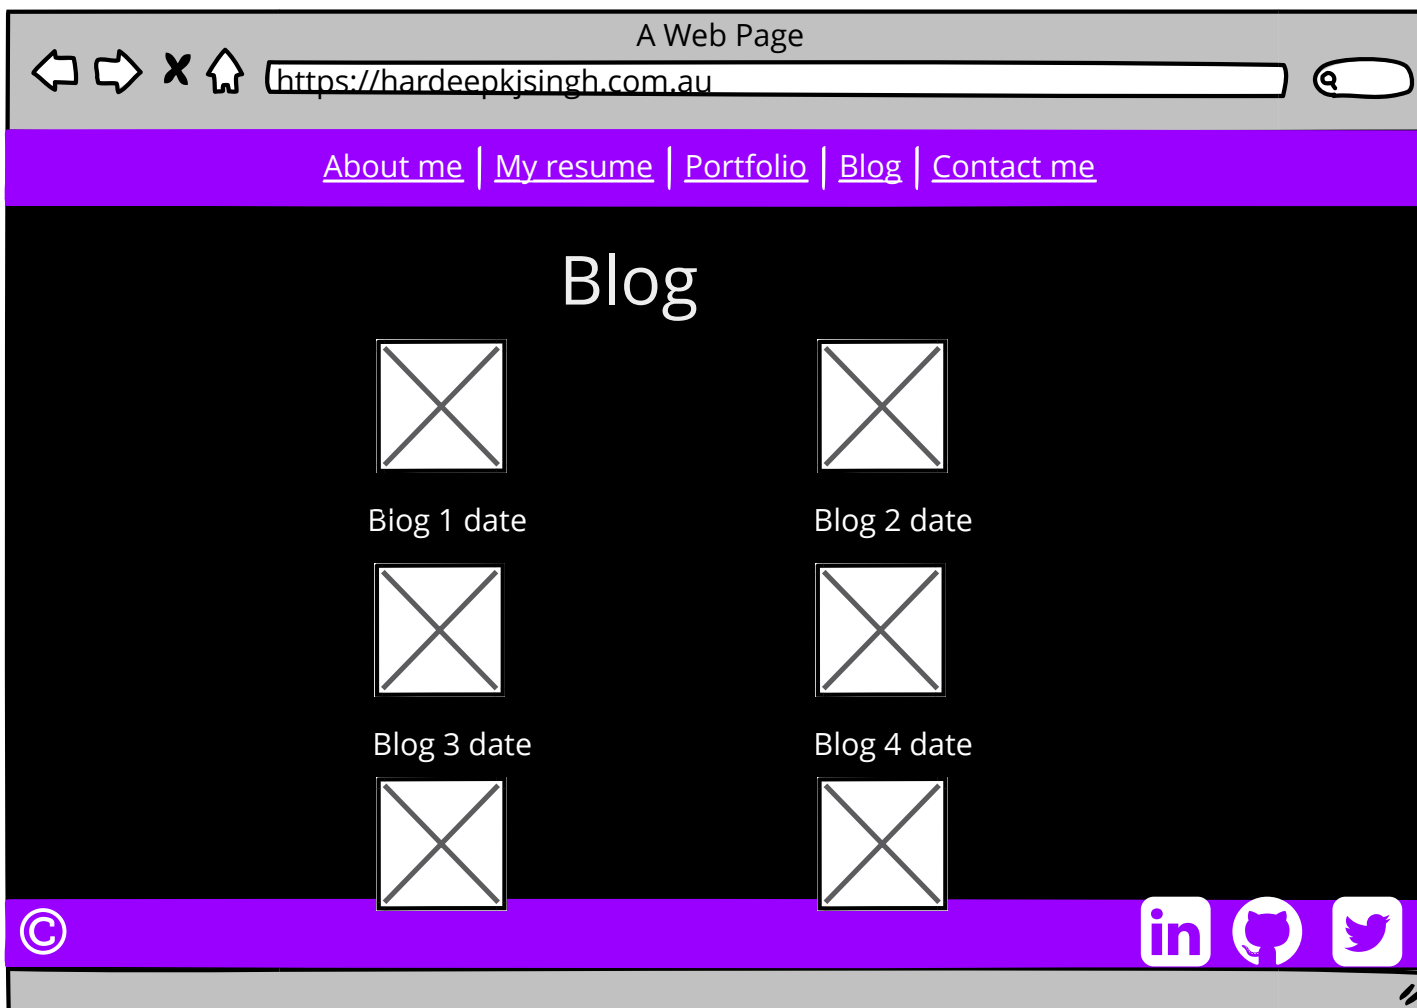

Can I figure out how to create a cover flow to show off my portfolio?!

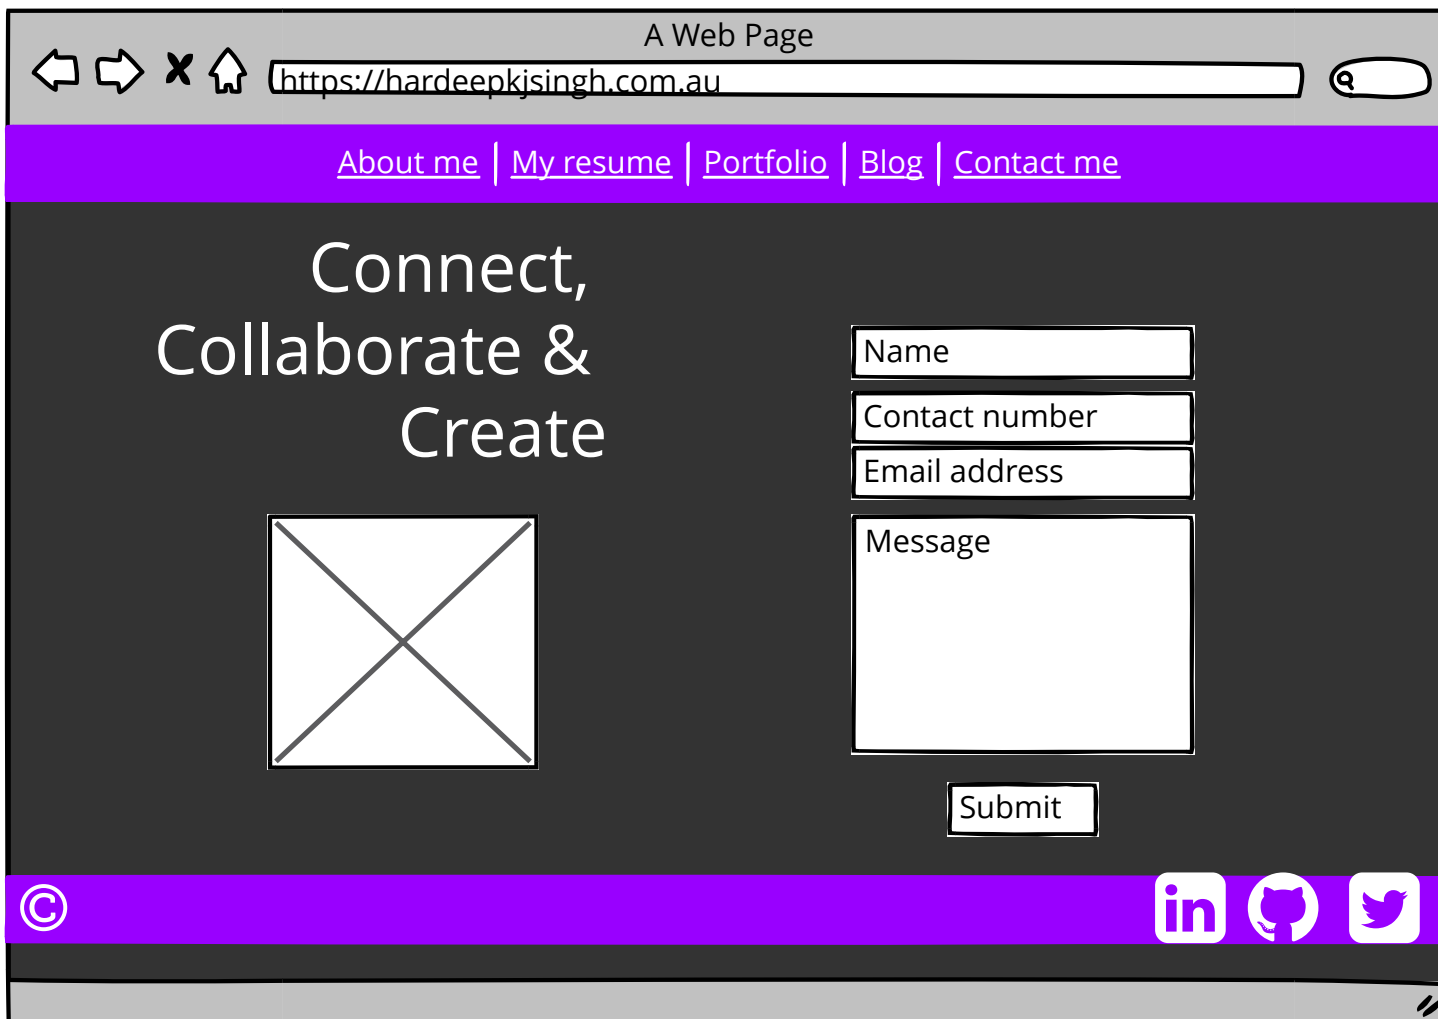

Body Background black with white cover flow

- There will be 6 links to previous created webpages
- the links will wrap an image related to the webpage as well as descriptive title
- The weblink images will be in the chevron shape

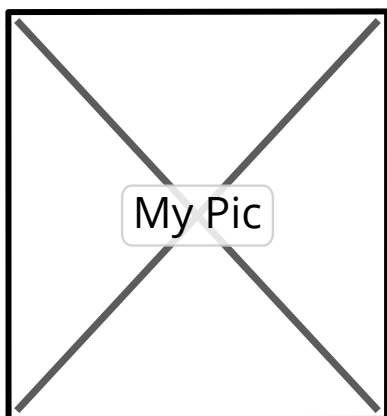

- There will be 6 links to dummy blogs
- there will be images related to the dummy titles, the images will be wrapped in hyperlinks and shaped like chevrons
- The chevrons will be animated to translate onto the page like arrows

- A simple form will make it easy for the user to get in touch, the name, contact number and email address will be a requirement
- A generous texture will allow the user to send an optional message
- Continuing the chevron theme, an image will be animated to translate onto the page like arrows
